

➤ ELÉMENTS DE LA STRUCTURE A VÉRIFIER

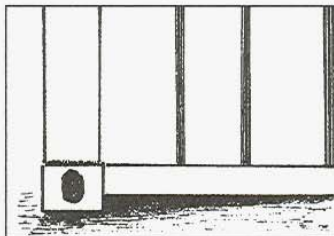

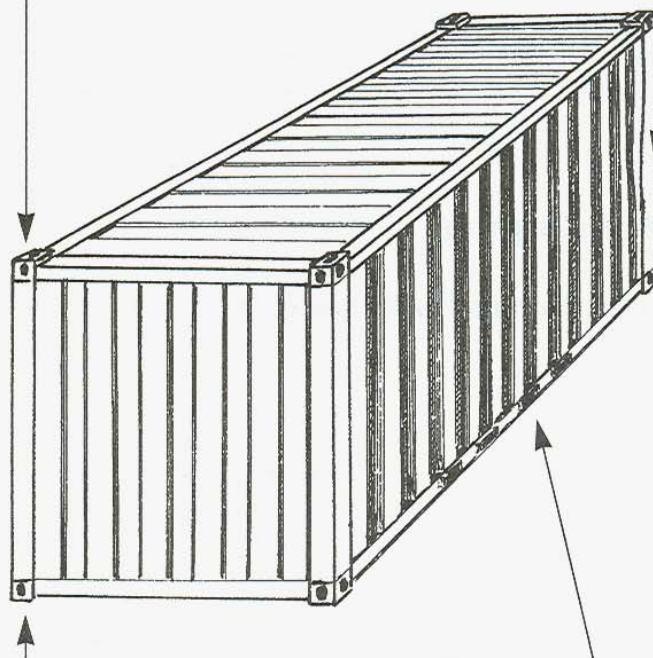

Pièces de coin : attention aux déformations ou aux fêlures.

Corner fittings : look out for deformations or cracks.

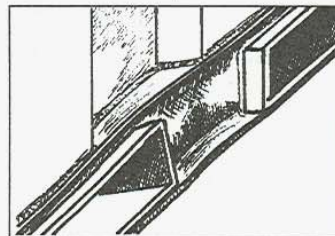

Montants : attention aux déformations et à leurs conséquences sur la fermeture des portes.

Lateral corner posts : look out for deformations and any consequences these may have for the closure of the doors.

Mauvais aplomb du conteneur pouvant être dû à son gauchissement.

Bad alignment may be due to warping of the container.

Longerons déformés et répercussions possibles sur le plancher.

Deformed bottom side rails may affect the floor.
